MODELS

Matrox Millennium G400
DVI Daughter Card
388557-xx1

matrox

Target Audience

- Financial trading houses with crowded, expensive floor space
- Hospitals benefit from lower radiation levels and less interference with sensitive equipment
- CAD and graphic designers benefit from brighter colours and reduced eye strain
- Markets where electricity is at a premium (Japan and Europe)

Key Features

- Support for 1600 x 1200 resolution on a PanelLink® Digital-based digital flat panel
- PanelLink® Digital interface technology replaces the analog interface traditionally built into computers with a digital version to ensure vivid, photo-realistic displays
- Offers digital flat panel users a higher resolution with a single graphics controller

What's Special About This Product

Today's new compact LCD (Liquid Crystal Display) monitors not only emit less radiation and consume less power, they also take up less space, allowing for a more comfortable work environment. Matrox Flat Panel links to the flat panel monitor and replaces the analog interface with the new PanelLink digital version, so you are assured the most vivid, photo-realistic displays.

The Compaq Advantage – Lowering the Cost of Ownership

Compaq goes to great lengths to provide its customers with the highest performing, most integrated and thoroughly tested computing solutions. This not only eases the purchase and service process by providing "one stop shopping" but also increases customer satisfaction and lowers the overall cost of ownership.

Quality and Compatibility

Compaq has a solid reputation for delivering high-quality, reliable enhancement products.

Compaq enhancement products are designed and tested to rigorous specifications, including tough qualification requirements for suppliers, stringent performance specifications, and a thorough testing process to ensure consistent quality from prototype to production.

Hardware compatibility:

All Deskpro EP and EN Series, including Deskpro EN Series Small Form Factor

Operating system compatibility:

OS/2, Windows 3.1, Windows 95, Windows 98, Windows NT3.51, and Windows NT4.

Warranty

Compaq enhancements are backed by the robust warranty of the Deskpro PC in which they are installed. In other computer brands, or in a Deskpro product with an expired warranty, the warranty is one year for parts and carry-in labor. Certain restrictions and exclusions apply. Consult the Compaq Customer Support Center for details. In Canada, consult the Product Information Centre at 1-888-88-COMPAQ.

Service and Support

Compaq technical support is available from a variety of sources. Telephone support is available around the clock in many countries. Drivers and technical documents are posted to the Compaq Web site. Request white papers via PaqFax. E-mail your questions to Compaq through online support forums.
